1929 Green bay packers when t 12-0-1 beating the Giants 12-1-1 note there are no playoffs who ever has more wins by the end of the season wins this is Curly Lambeau 1st championship. The Giants one loss came against the Packers. The only score the Giants got all game was a touchdown in the 2ed quarter … with a blocked conversion. The packers one tie was against 3rd place team Frankford Yellow Jackets with a exhilarating 0-0 game love defence

1930 packers where worse finishing 10-3-1 lucky the giants also got worse and as for the Yellow Jackets 4-13-1 this also the portsmouth spartans inaugural season a team that would later be the lions

1931 the Spartans turned things around finishing 11-3 but the Packers finished 12-2 the 3-peat but can they make it 4?

1932 the packers started the season with a win at the chicago cardinals then a tie against the chicago bears a team that would tie 6 times that season a record that stands to this day the packers would go on to win 9 games of there next 10 before losing to the Spartans & Bears if the Packers had won either of those games they would of been in the playoffs not the today playoffs the Spartans & bears were tied for best record there was 1 more game at the end of the season, but this still started what I call the “Lambeau curse” no other team has been able to 3-peat in the NFL since but this curse would very quickly be challenged

1933 The bears were even better than last year winning 10 games and get this tie just 1 lost 2 but they easily beat the Spartans (who went 6-5) in the playoff race “but you said there aren't playoff” well guess what the NFL added them

Playoffs the bears had a better record than the Giants and so got home court advantage for the 1st NFL playoff game ever the Giants played a trick play were the QB would hand the ball to the center after the snap but pretend he still had it he went all the way to the 15 before getting tacked then the Giants stalled out and missed a field goal they but it's still early the Bears scored 2 field the Giants 1 touchdown the Giants and Bears traded touch downs the bears tacked on a field goal the Giants a touchdown then the Bears another touchdown. For the early NFL you know the one that just last season had their best team tie 6 games in this period of NLF it was either 1 sided clobberings or ties that's how most leagues are when they start. Also only 2 teams made the playoffs during these early days so the bears have a 2-peat. But can they make it 3?

1934 a perfect season they won every time without a tie this led to a 173 point differential after only 13 games. Just like the patriots also like the patriots they beat the Giants in the regular season before meeting them in the playoffs but after the 1st 3 quarters things were looking grim for the Giants 13-3 in the 4th the Giants were undeterred by this drove down the field and threw an interception if the Bears score a touchdown here that'd probably be ball game but Lambeu made them fumble on their own 2 yard line Giants touchdown and the Giants never looked back running back Mr.strong (real name) scored 2 unanswered touchdowns the bears who had been putting up horrible offence this game still couldn't get anything going and the Giants got a

chance to score again and they did scoring 4 touchdowns in one quarter interestingly do to the cold weather the Giants played the game in sneakers not cleats
